12/23/70 Friction within the Unidad Popular (UP). Agency was asked at a prior 40 meeting to consider an action program to split the UP which supports Allende. The paper lists some points of friction and it summarizes operations undertaken to increase frictions and mentions planning underway for other activities on which Mr. Crimmins will provide you his comment orally. The Committee is not being asked at this point to approve a program. We favor support of programs to accentuate frictions as long as the US hand is thoroughly concealed but the Department should be consulted fully on the format and timing of any program.

See 40 C.11X (Mtg. not held)

2/17/71 Covert Action Program for Chile. Following the SRG meeting on Wednesday, Feb. 17, the 40 Committee will be given an oral briefing on Chile. Mr. Broe says it will be a status report on actions taken recently by the Agency. The Committee will not be asked to make any decisions.

For information purposes a memorandum outlining the objectives of the program together with CIA's basic paper which received the approval of the 40 Committee appears in the Book prepared for that meeting. The Minutes of this meeting are dated 14 April and were received on 20 April 1971, they carry the following title and the following summary:

Chile - Financial Support of Chilean Opposition Parties for the April 1971 Elections [redacted] (Meeting held 28 Jan 1971).

[redacted] Mr. Broe explained the proposals totalling [redacted] which would support the political opposition to the Allende Government--National Party, Christian Democratic Party and Democratic Radical Party.

[redacted] would be split among the three parties for the electoral campaigns, with the major portion going to the PDC.

[redacted]

On this note, the proposals totalling $1,240,000 as outlined in the CIA paper were unanimously approved.

11/17/70 - Chile. Covert Action Program. Dr. Kissinger asked CIA to provide a briefing on the proposals outlined in the paper dated 17 November 1970.

Mr. Broe said the program consisted of a number of political actions designed to divide and weaken the Allende Gov't.

The paper summarizes ongoing activities in the CIA action program for Chile, and sets forth certain proposed additional actions as well. Keyed to NSDM 93, the program is directed at the Allende Gov't., the Chilean Armed Forces, the non-Marxist opposition, the Chilean public, and in an effort to maximize pressure on the Allende government.

See 40C.10

12/7/70 - Chile. Oral briefing by CIA. Minutes state that:

Dr. Kissinger asked for a progress report on the CIA covert action program in Chile.

Mr. Broe said that there are no new proposals but actions are continuing between groups and individuals in the UP coalition and between UP elements and Allende. He also said that the present attitude of the Chilean Armed Forces could perhaps be best described as one of considerable caution.

See Minutes 40C.11

12/23/70 Chilean Media Under a Marxist Regime. Status report on Chilean media that had been orally asked for in the December 7 meeting. The paper contained no recommendation for Committee action at this time but suggests that if the 40 Comte does receive a recommendation it look carefully at the security of the techniques by which CIA would provide support.

9/8/70 Chile --

Lord as to what might be done. c. thru g. (See Minutes in 40 C.8 for full details.) ... h. IN accord with the agreement of those present, the Chairman directed that the Emba Embassy be immediately requested for a cold-blooded assessment of:

(1) the pros and cons and problems and prospects involved should a Chilean military coup be organized now with U.S. assistance, and

(2) the pros and cons and problems and prospects involved in organizing an effective future Chilean opposition to Allende.

i. The Chairman stated that these assessments and recommendations should be available in time for 40 Committee consideration in a meeting to be convened on 14 Sept.

6/27/70 (cont'd). -- proposal for the infusion of [ ] more f- anti-Allende activity, and (2) to defer any decision -- [ ] The risks in eventually embarking on this cour se were apparent and no action would be undertaken without further deliberations by the 40 Comte. i. The critical indicator for Korry's second proposal would be, if at the end of the election, Alessandri's margin fell below 5%. j. The Comte. will keep close watch on Chilean developments from now until Sept.

See 40-C-5

8/7/70 -- Chile -- Summary of Developments. a. The minute of the Comte. meeting of 27-June 1970 contains the statement, "The Comte. will keep close watch on Chilean developments from now until September." In compliance, Mr. Broe brought the principals up to date with following observations: There was some evidence that Alessandri had stemmed his downward trend; Allende was intensifying his drive, particularly in the heavily populated Santiago area; Tomic, still enthusiast was wooing the left rather than the right. There was addi- tional evidence that Allende was sensitive to the attacks organized against him and was attempting to respond. b. The country team indicated as they headed into the home stretch that additional funds might be needed. (See minutes for full details).

See 40 C. 6

9/8/70 -- Chile -- a. The Chairman opened the meeting with a reference to Amb. Korry's excellent cable of 9/7/70 and asked for an analysis of where prospects now stand for taking any kind of action which might successfully preclude Allende assuming the presidency of Chile following his garnering of a plurality of the popular vote in the elections on 4 Sept. b. Mr. Brow summarized the situation and high- lighted some of the points in Amb. Korry's cable. He noted that Korry is attempting to maintain flexibility and that there is some, but not much, fluidity in the situatio He pointed out that Frei is an essential cog to suc in any action, congressional or military, to frust an Allende take-over and that Amb. Korry is very ps. mistic about the prospects of Frei doing much more than deploring Allende's electoral victory. He concluded that it is still too early to decide on a given course of acti on and suggested that the Embassy and CIA field elements be requested during the next week to probe all possible aspects of feasible actions and forward recommendations

3/25/70 -- Political Action Related to 1970 Chilean Presidential Election. -- CIA paper dated 3/5/70. a. Mr. Broe briefed the Comte. in detail on the close three-way presidential election race in Chile between Alessandri, Allende, and Tomic. ... b. In ensuing discussion, cognizance was taken of the fact that following an electoral poll to be conducted in Chile in April, the Ambassador and CIA Station Chief might recommend additional action, possibly even including ~~xx~~ direct support to one candidate. c. The members were unanimous in approving the proposal as described in the ~~xx~~ CIA paper of 3/5/70, including the funding level. (for full details, see Minutes in

6/27/70 -- Political Action Related to 1970 Presidential Election. 6/27/70 - CIA paper dated 6/22/70. a. Mr. Broe outlined what had been done so far in the Chilean election campaign and what the current situation was as election day approaches. He went on to describe the Korry proposals which, those present agreed, were really two separable concepts. b. At the present time the Chilean Congress divides as follows: for Alessandri, 43; for Tomic, 75; for Allende, 82.c [redacted] If a clear majority is not obtained, under the Chilean constitution the two highest vote-getters are dumped into a selective process by the Congress. d. Mr. Broe indicated that Alessandri was slipping and was conducting a campaign based on the past; Tomic's program lacked clarity for the Chilean voter; Allende seemed to be gaining a head of steam with an attractive package of promises forthe have-nots. e. Mr. K. wondered why more active support of Tomic would not cause the most damage to Allende. f. [redacted]

[redacted] g. Mr. Johnson said that Messrs. Meyer and Crimmins from ARA were negative on both Korry proposals... h. It was agreed ... (1) to approve Part A of the Korry

7/12/68 -- Chile - March 1969 Congressional Election. ---paper dated 6/20/68. ...See Minutes for detailed discussion; minute dated 7/15/68. c. The committee approved the project with the proviso that monthly progress be indicated to the committee from this moment on.

303 C. 7?

9/3/68 -- Chile - March 1969 Congressional Election (Status Report) -- Paper dated 8/20/68 -- a. The committee noted with interest the 1st progress report from the Korry country team in Santiago on the Chilean election and requested at least two more before January. b. The lack of a spic-and-span picture at this time is largely due to the fact that particular candidates are not selected until Nov., and the campaign gets under way only later in Dec.

See 303 C. 73

12/27/68 -- Chile - March 1969 Congressional Election (Progress Report) paper dated 12/5/68. The progress report on the March 1969 congressional elections in Chile was discussed briefly. It appeared that Frei, despite fragmentation tendencies in his party, is holding a line which bars coordination with the communists.
